

Trashure Exchange Station

Dear passersby,

If you happen to stare at my stall and care enough to read this, you may want to know what the hell is going on. Here I laid down the tools, models, and residues that I had used or produced for previous projects, which I want to get past yet unwilling to throw away. I would like to initiate exchanges with people who also have something that's both trash and treasure. What you give me could be physical objects, or intangible, conceptual things. I would call it a deal as long as we can talk and reach a consensus. How about that?

P.S. If you think your "thing" could be money, which I very much like to take, too, you may pay by cash, card, Venmo, Paypal, Bank of America App, etc. I bought a card reader just for you!

Yours,
